

Client Profile

Commerzbank is Germany's second largest bank, holding a nationwide network of branch offices, numerous offshore branch offices and representations in more than 50 countries globally which employed a total of 51,782 employees as at June 2014.

They offer their clients retail and commercial financing services, investment banking services, asset management & private banking services.

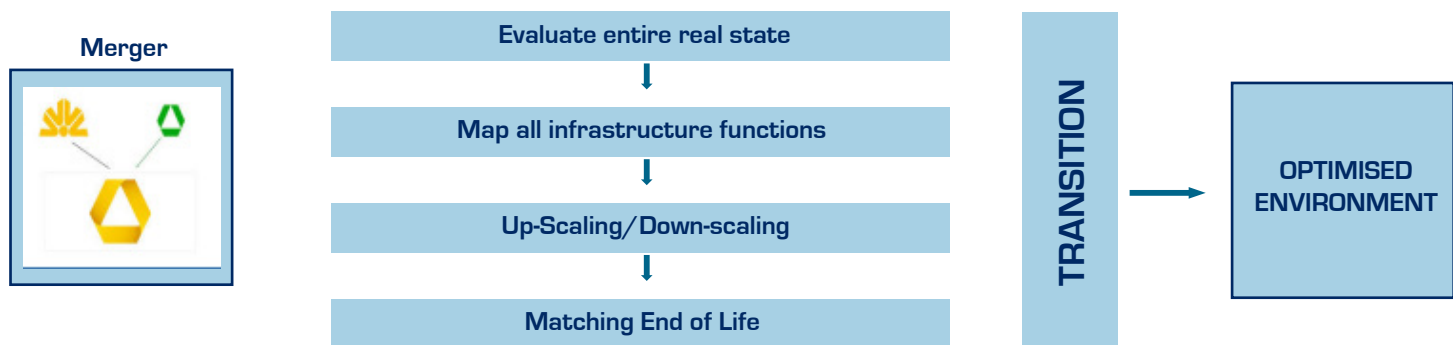

Challenges

In 2008 we established a Infrastructure Optimisation Programme aiming to cover cost saving efforts across all functions in Europe, North-America and Asia and also managed the delivery and execution.

Commerzbank wanted us to:

- ✓ Set up the programme plan and establish detailed month-by-month delivery plan.
- ✓ Identify and deliver quick wins on the way.
- ✓ On-going monitoring and review of all deliverables, risks and dependencies.

cibsys Approach

Key Outcomes

Our client benefited from:

- ✓ Immediate cost savings due to quick wins
- ✓ On-time deployment of updates
- ✓ Aligned monitoring tools
- ✓ Comprehensive application management tracking

Value creation

- ✓ Fully merged the companies infrastructure environment.
- ✓ Set up an automated monitoring environment.
- ✓ Increased future savings by putting in place an End of Life tracking system.
